

Syncing your Device/Software with the ChapLAX.com Calendar

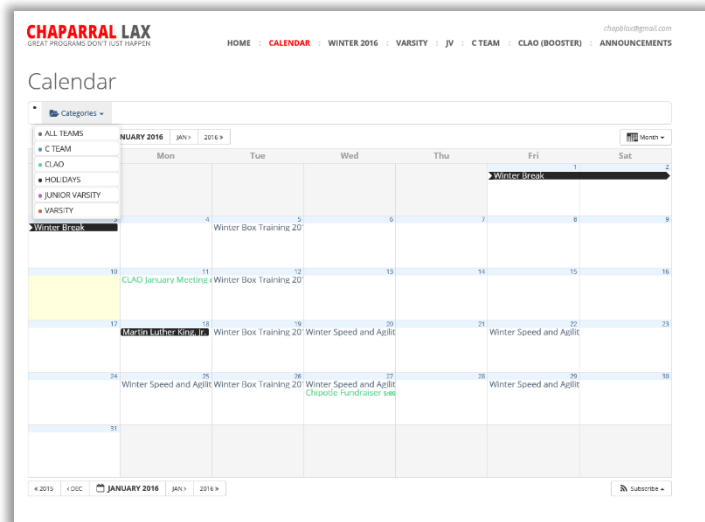

1. Navigate on the PC or Device that you desire to sync the ChapLAX Calendar to
<http://www.chaplax.com/>
2. Then click “Calendar” from the menu at the top.

Optional you can also navigate to the specific team schedules and continue on with the same steps starting at Step 5. For instance, if you know your son will be playing Varsity then you can click on “Varsity” menu at top and then click “2016 Varsity Schedule” to display that Calendar view.

The Calendar by default will display all events. If this is the desired events, you can continue on to Step 5. **Note: if you are on mobile device then the calendar may look different because of the screen size.**

3. If you would like to filter specific category of events, you can click on “Categories” on the upper left portion of the calendar and Select each of the categories you are interested in.

4. Now the desired events are displayed you can click “Subscribe” in the lower right and select the type of Calendar for your device or software.

5. You should be prompted in your device or software to allow the subscription. From now on the ChapLAX calendar will sync to your device or software.
